Components and Modules

Contract Outsource Manufacturing and Test

Fastech Synergy Ltd is a leading provider of a one-stop manufacturing services for leading RF and microwave companies world-wide. We offer a complete range of manufacturing capabilities including surface mount, mixed and hybrid assembly with a full spectrum of RF and microwave functional testing and tuning. As your strategic manufacturing partner, we can provide prototyping, quick turn and dedicated build-to-print production services for complete RF and microwave products and sub-assemblies.

With more than 10 years of experience in RF module and microwave assemblies, Fastech maintains state-of-the-art production equipment and facilities in its manufacturing complex at the Light Industry and Science Park I located in Cabuyao, Laguna, Philippines.

Fastech works on a consigned materials or complete turnkey basis. Various manufacturing arrangements are available to respond to customer's individual operating needs.

Fastech Synergy Ltd is listed on the Singapore Stock Exchange (SGX).

Association Connecting Electronics Industries

Manufacturing Solutions for your RF and Microwave Products

Our team has a proven track record in manufacturing RF and microwave products, including:

- microwave amplifiers
- cascaded amplifiers
- attenuators
- mixers
- VCOs
- OCXOs
- power dividers
- filters
- switches
- chokes
- isolators
- circulators

Tuning & Test Capabilities

Open/short • Harmonics • Isolation loss • Insertion loss • Conversion loss • Return loss • Phase noise • Parametric test • Gain/amplification • Frequency stabilization • Compression point • System and module level test • P-1 db compression • Noise figure • V-tune
